

We love what we do. We give 100% every day – even more than that, in a sense. We're always perfectly prepared. We're different. Faster than most. Always one turn of the screw more precise. We are, after all: Porsche. We are committed to the crest. An attitude that runs through everything we do.

We are hiring you as:

Technical Specialist

Location: Porsche Centre Saigon

Your responsibilities:

- Monitoring and handling of all technical car problem cases in HCMC and Hanoi
- Support Technician team with fault diagnostics
- "Flying doctor" to support diagnostics in critical car-down cases
- Creation and handling of technical PRMS tickets from all Porsche branches to ensure fast support/feedback from headquarters (received tickets must be processed within 2 hours)
- Provide regular updates about common technical car issues to After Sales team, including Technical Issue Monitoring reports (TIM)
- Reporting of common technical problems to Porsche Asia Pacific (PAP), including Porsche Quality Analysis Reports (PQA)
- PIWIS Tester support (technical, updates, purchases, warranty)
- Other miscellaneous tasks and ad hoc assignments to support Porsche operations

Your qualifications:

- Technical degree holder
- Extensive knowledge about vehicle systems and technologies
- 2 years working experience as a Technician
- Very good vehicle diagnostic skills
- Precise and well organized working style; good planning and administration abilities
- Advanced problem solving skills
- Good English skills
- Good communication skills
- Customer focused approach
- Dynamic, positive, confident, self-motivated team player

PORSCHE

We are offering you:

- Comprehensive training and attractive career development opportunities.
- Work with a highly professional team of Porsche enthusiasts.
- Work environment and processes based on highest German standards.
- Attractive salary, performance based incentive schemes and extensive employee benefits.

Are you ready to join our team?
